AIS/LOC/X-XII/21-22/10

Sep 24, 2021

Dear Parents,

After over one and half year, the school opens for in person classroom sessions. It begins for the students of secondary school only but very hopeful to have other students lower the order soon. Meantime, they would continue be receiving online support till the situation becomes more conducive for them.

Since secondary stage is very crucial in terms of getting them registered with the CBSE and list of candidates for classes X and XII graders and for XII seeking higher education.

Past one and half year, have been tough for humanity and still uncertainty and fear is looming on our head for getting contracted with the virus if we go out for work.

During this time of trials, though we stand apart from each other but were together in our prayers and wishes with a strong strength.

Seeing current situation, things now appear to be normal and life starts to be taking off and so for students studies.

With regard to the CBSE, you are already aware about certain modalities to be completed for filling up the board examination forms for classes X and XII, unlike previous years this time the board has only given one week time to complete all formalities and the LOC be sent on or before the deadline. There are few things which would be required while filling up board form, one school fee to be cleared and another examination fee. The circular in this regard has already been sent to you through your ward. We appreciate and acknowledge your efforts how you have helped your kid in her/his studies all these times and I am sure you would continue supporting them even in a bigger and better way.

With this I would advise to support your child by way of timely completion of board's requirements including school fee and board fee are to be paid before the deadline 29.09.2021 so that timely compliance of the board directives could be ensured.

With best wishes,

Regards

Principal
